

Occupational Health & Safety Policy

The Stemar Group is committed to providing a safe working environment for all personnel present at our workplaces. Through systematic management of OHS risk, and sustained organisational commitment to OHS, we will make our best endeavours to eliminate workplace injuries and illnesses.

The Stemar Group recognizes that the responsibility for health and safety lies with every manager, employee and contractor and forms an integral part of our leadership and management functions at all levels of the organisation.

We will work together to develop a workplace culture which proactively manages occupational health and safety issues.

We are committed to:

1. Comply fully with all applicable safety and health laws and regulations.
2. Provide the training, equipment and support necessary for safe, healthy and productive work.
3. Through workplace consultation and engagement continuously improving our work practices towards the goal of elimination of work related injury and illness.
4. Establishing measurable objectives and targets, monitoring and reporting on our safety and health performance.
5. Promote and support health initiatives at all Stemar Group work sites.
6. Share our knowledge of occupational health and safety among our worksites and with others in our industry.
7. Recognise the hazards that exist in the construction industry and take every practicable step to manage and mitigate the risk.
